REVOLUTIONARY HEAT EXCHANGER

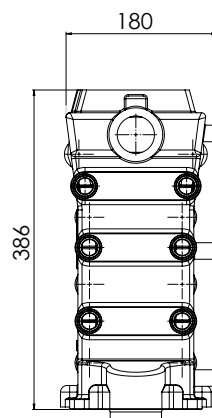

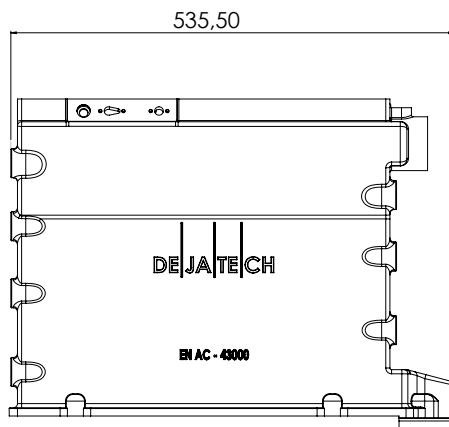

Vertiflex

REVOLUTIONARY HEAT EXCHANGER

This revolutionary heat exchanger is especially designed for the utility and industrial market.

Benefits

- Compact esthetic design.
- High modulation range possible.
- Low pneumatic resistance.
- High quality/price ratio.
- Robust reliable design based on 30 years of developing experience.
- No refractories needed.

VERTIFLEX		
Type	Vertiflex 60	unit
Nominal input	60	kW
Efficiency load 30%	107	%
Operating pressure	6	bar
L x W x H	180 x 535,5 x 386	mm
Flue connection Ø	130	mm
Weight	25	kg

Products are subject to changes. Therefore these dimensions may differ from offered products.
